Education

University of Turin <i>Master in Mathematics (Final Grade 110 cum laude)</i>	September 2022-July 2024 Turin, Italy
University of Turin <i>Bachelor in Mathematics (Final Grade 100)</i>	September 2019-July 2022 Turin, Italy

Experience

Cosmic Montessori School <i>Elementary School Teacher</i>	May 2026 – Current Aurora, IL, USA
• Teach Mathematics, Integrated Sciences (Physics, Chemistry, Biology, and Zoology), and Computer Science to students aged 6–12 in a Montessori elementary school environment. • Design and deliver age-appropriate, inquiry-based lessons that integrate mathematical reasoning, scientific investigation, and computational thinking. • Developed curricula in Science, Computer Science, and advanced Mathematics, adapting content to different ages, abilities, and levels of prior knowledge. • Collaborate with the University of Western Australia and the Einstein-First research group to investigate the integration of modern physics curricula within the Montessori educational framework.	
Alberghiero di Rovereto High School <i>Mathematics Teacher</i>	September 2025 – December 2025 Rovereto, Italy
• Served as the lead Mathematics teacher for three classes of students aged 15–19, teaching across upper-secondary grade levels. • Planned and delivered mathematics lessons covering statistics, data analysis, and other core mathematical concepts, adapting instruction to different levels of preparation. • Designed interactive and collaborative activities to develop students' mathematical reasoning, problem-solving, and statistical thinking. • Provided individualized support to students with special educational needs, adapting explanations, materials, and classroom activities to support their learning.	
University of Western Australia <i>Teaching and Research Assistant</i>	January 2025 – August 2025 Perth, Western Australia
• Co-taught university lectures and supported course delivery in collaboration with the supervising professor. • Contributed to the Einstein-First research group through curriculum development, research activities, and preparation and revision of research publications.	
GoStudent <i>Private Tutor</i>	November 2021 – Present Italy
• Provide individualized instruction in Mathematics, Physics, Chemistry, Biology, Italian, and German to students ranging from primary school to university. • Adapt teaching strategies, learning materials, and digital tools to students' individual needs, using interactive exercises, GeoGebra, multimedia resources, and real-world applications.	
University of Cologne <i>Student Teacher / Trainee</i>	October 2023 – March 2024 Cologne, Germany
• Gained practical teaching experience in German middle schools, with a focus on mathematics and physics pedagogy and classroom practice.	
IPRASE <i>Professor's Assistant</i>	December 2021 – May 2022 Trento, Italy
• Assisted with teacher-training courses on the implementation of MERLO-based student assessment methods in middle and high school education.	

Publications

- *Einstein-First: un progetto australiano da portare nel mondo*, Lisa Galvagni, David Blair, Tejinder Kaur, Matteo Luca Ruggiero. Published on Il Giornale di Fisica, 22 April 2026.
- *Einstein's elevator and the principle of equivalence*, L. Galvagni, G. Magnano, M. L. Ruggiero. Published on Physics Education, 23 July 2025.
- *Presenter at the International Symposium on Teaching Einsteinian Physics (Perth, WA, Australia), 11 July 2025.*

Technical Skills

Subjects I am able to teach: Mathematics, Physics, Chemistry, Biology, Natural Sciences, Italian

Programming Language: C, C++

Software: Matlab, Maple, R-Studio, Office Package (Word Excel, PowerPoint etc.), Geogebra

Languages: Italian, English and German
